The issue of Jews and Judaism goes way back for nearly two Millennia and has been widely debated. Jews have oft, and for good reason, been thrown out of nations and regions of Europe and to this day, remain in denial of the reasons why. Indeed, as an aggregate group, they continue to propagate the very same attitudes that harm the host nations within which they live within. Over the storied history of what is said to be "Jewish diaspora culture", absolutely none of the negative traits exhibited by Jews towards their hosts had anything to do with "Zionism". Greg insistence on ignoring history to suit his narrow minded presentation, and then trying to make it appear that somehow nobody but he knows the real story of what is going on is idiotic. In 2013, former Congresswoman Cynthia McKinney came on my show and spoke about the "loyalty oath to Israel" that was required to be signed by members of Congress. Gilad Atzmon does not pull any punches in using the term "Jew" to describe Israel and the ongoing occupation of our nations. We can go on and on and on, but Greg doesn't display the necessary brains nor intellect to dance around semantics and recognize that his narrow reality is but just that, one "narrow" reality. That was exposed purely on Greg's own initiative. If he wants a shovel, I will gladly one to him.

Discussing an ethnic group is one thing, bigotry and racial profiling are something else. When it comes to immigration, free as well as forced movements of people due to economic and political hardships are the result of policies imposed by Western industrial countries on the so called "Third World". Globalization is not the invention of Africa, Asia, or Latin America but a doctrine imposed by The U.S on other countries. In addition to military invasions and non-stop wars, neoliberal global economics has been destroying local economies worldwide, which created the massive wave of migration northbound. I understand you idealized a "genetically pure" society but you should bear in mind that the post Cold War era has been manufactured to generate exactly what we witness in our current times; the end of cultures and nation-state sovereignty, the "end of history". Solution: "These dull notes we sing Discords need for helps to grace them." Thomas Campion (1567–1620) 1- Be objective in reading world history. 2- Tolerance is the way. 3- Be human. Which means that the people of Europe and America have nothing to do with this and should themselves have every right to throw off the agenda that is too, being imposed on them. Opening our borders and denying Jewish culpability in the larger agenda, then SPEAKING OPENLY about who is the core problem, sounds a rational thing to be doing. Sounds like you are very confused. What you want is tolerance of that which is intolerant, which is a recipe for tyranny. For the record, the person who recommend Greg be a guest on my show has since apologized to me. She has no idea just what really lie behind Greg's presentation. That is why people listen to the show.

You are correct, Nour. Fetcho is an anti-Jewish bigot masquerading as a host. His refusal to distinguish between Jew and zionist indicates that he is more interested in blamecasting than in rational discussion. The history of Jews before the 19th century has NO RELEVANCE WHATSOEVER to contemporary politics, as you doubtless know. I tried to explain to Fetcho that zionists are atheistic Jews, but he's not interested. I have never been treated so disrespectfully by a host, and I have never been thrown under the bus because I deigned to disagree with him. Fetcho is a fraud.

Greg Felton [5 months ago](#)

You are such a delusional hypocrite.

[Inside the Eye - Live! 5 months ago](#)

Greg, in today's world, only a complete idiot would even dare to use the term "anti-Jewish bigot". It absolutely destroys your street credibility within the patriot movement. People are so sick and tired of these cheap labels that Jews have been applying to pretty much everybody. What is next? That the audience are "deporables"?

Greg Felton [5 months ago](#)

By your refusal to respect the distinction between Jew and zionist and your willful conflation of Judaism and zionism you demonstrate that you are obsessed with indiscriminately blaming Jews. Your own words hang you, and your attempt at distortion and misrepresentation of my charge against you is transparently incompetent. I do not belong to any "patriot" movement, nor would I want to. Patriotism is the last refuge of the scoundrel, which explains a lot. Nothing you wrote did anything to disprove my charge that you're an anti-Jewish bigot. You just tried to justify your bigotry. My credibility is just fine, thank you very much. BTW, when did you appoint yourself spokesman for "today's world?" That's something a complete idiot would do.

Unfortunately for you, you don't dictate the terms and your viewpoint is not universal nor is it particularly intellectual. It is lazy and fits a narrative that aids and abets the occupation of the West by Jewish political power. We will continue to raise the issue of Jews and their destruction of the West because that is simply being honest. Call it what you will. We don't care.

Inside the Eye...(anatomically speaking) "ought to be" a brain...with an intellect that allows discussion, analysis & progress of ideas...but in this particular "interview" the guest's comments were not only badly muffled,WORSE, they were not even fully explored or respected. At least Felton studied & researched at length the topic. Alas, Fetcho did not listen but worse he CONFLATED issues and ideas as we often find amongst folks who post "the latest "youtube nonsense as if it were "Fact"... Hearsay is NOT fact, ---common talking points these days are NOT fact based but populist fiction in far too many examples. I wish we could have heard MORE from the guest ---NOT merely drowning him out with cliches and lazy run of the mill counters. I think HOST & PARASITE is ESSENTIAL READING and Deserves fuller exploration in order to INFORM others who want/need more in depth understanding --in order to develop a RATIONAL reasonable direction to head towards. The conclusion of this interview left me wanting to hear MORE from Felton not less...and not more 'host'. it COULD have been a truly helpful informed/informative discussion---Fetcho was merely argumentative. 3

We have done over 200 interviews. We have a very good track record and we believe that when you invite a guest on, you should be generous and allow for discussion. However, we do not expect that courtesy to mean that guests can come on to demean the audience and the host, equally. The issue is as you said, the audio was terrible, but so was the delivery and the tone. There are plenty of venues more amenable to Greg's message. I was actually going to apologize to him until I saw his comments. It is clear that Inside the Eye - Live! is a very poor venue for a politically correct demanding person as Greg. Perhaps he should go on Kevin Barrett's, Jim Fetzer's, or many others who are averse to using accurate terms as "Jews" to describe Jews. 2

Demean the host? You lie. The only one demeaned was me because you insisted on riding your anti-Jewish hobby horse even after i asked you to stick to the topic. 1

Nice bit of sabotaging, Dennis! I make no apologies for being accurate in my terminology. it is too bad you were less interested in what i had to say on U.S. foreign policy than you were in hijacking the interview to flog your own prejudices.

;unacceptable definitions"????? wtf? What's more important than defining the terms in debates? nothing.

Greg Felton [4 months ago](#)

Hey, Jack! Great way to duck the issue. Credentializing Fetcho is really a form of intellectual suicide. All you proved is that Fetcho has been making an incompetent argument for a long time before I pointed out his error. You do not address the fallacy in Fetcho's diatribe, so you deflect like a good little acolyte. It does not matter what Jews themselves think or say. This is not a private language game where Jews get to decide definitions based solely on self-aggrandizement. I PROVED to Fetcho that he was wrong but he refused to see it. You and he care more about hating Jews than investing rationally.

The host's understanding is pretty poor. Very poor.

Inside the Eye - Live! Thanks for the upload. As the host indicated, Greg Felton's audio is muffled - as if he has a sock over the mic. It is too difficult to hear, so I am switching off. If he wants to be heard he should buy a proper microphone or rectify his electronics.

I would like to have listened to this interview, however it seems the producer was either censoring or muffling the audio when Greg Felton, the guest, is speaking. While the host's audio and sound is almost overly loud, Greg's responses are muffled and can hardly be heard. I've enjoyed Greg's lectures before as he is eloquent and incredibly well schooled on the Middle East and American foreign policy. How disappointing the show then devolved into an unresolved argument. I can't imagine at all that being instigated by the guest. From the audio problems, it seems the deck was stacked against Greg. xo Connie
